Boatman is heading for Washington, D.C.

Cayle Boatman

Citizens Mutual Telephone Cooperative is sponsoring Cayle Boatman, daughter of Jan Stevenson and Jack Boatman of Bloomfield, to attend the 2011 Foundation of Rural Service (FRS) Youth Tour in Washington, D.C. June 4-8, 2011. Cayle will be joining more than 100 other high school students from throughout the United States to learn about the role of telecommunications in rural American communities. Youth tour participants receive a first-hand look at how the legislative and regulatory decisions made in Washington, D.C., affect the critical role played by telecommunications in rural

America, including careers in telecommunications.

In addition to the educational components of this trip, the students also tour Mr. Vernon, Smithsonian Museums, National Cathedral, National Zoo, Arlington National Cemetery, the Capitol, and have dinner at Union Station.

CMTEL is dedicated to the people in Davis County, and sponsoring this trip for local students is one way of expressing our commitment. We hope that you look to us not only as your telecommunications provider, but also as a strong supporter of your community.

CMTEL to Pay Over \$350,000 to Members

Citizens Mutual Telephone Cooperative (CMTEL) is pleased to announce the payment of capital credits to customers who had telephone service during the calendar years of 1993 and/or 2010. The payments will be mailed in early June.

The Board of Directors places value on returning a portion of all allocated patronage capital to our more recent or current customers as well as our long-standing customers. The total dollar amount of capital credits to be paid out exceeds \$350,000.

Capital credits represent patronage fur-

nished by customers in excess of the cost of providing telephone service. This capital represents an investment in the telephone cooperative by its members and provides funding for capital improvements and operations while helping to reduce reliance on debt financing.

Citizens Mutual Telephone is pleased to return to its customers a portion of their capital investment in the cooperative while continuing to meet our investment goals for improvements.
